4a	25	40	0				
4	108	173	92				
5	108	173	92				

Leaving out the first 20 cm long module may offer two variations:

1. Terminal of a double track line. Usage of an additional crossover is recommended.
2. Terminal of two single track lines (switchback) using module NRE-040. Please note: If entering the station via track 4a, only tracks 4 and 5 are accessible. Via track 3 (gateway) all station tracks are accessible.
